L-3 Telemetry & RF Products Provides Next-Generation Telemetry Modules to Boeing's Successful SDB II Program

SAN DIEGO, CA., November 13, 2009 — L-3 Telemetry & RF Products Group has provided key next generation telemetry modules in support of Boeing's first SDB II (Small Diameter Bomb II) Program flight test. This successful test was accomplished on Sept. 29 at Eglin Air Force Base located near Fort Walton Beach, Fla.

SDB II Test Vehicle data was collected during flight test by a fifth generation data acquisition system. Data was then transmitted seamlessly to Eglin AFB ground facilities via the newly developed Multi-Mode Transmitter. Eglin ground facilities were used to process and record the data received.

L-3's T&RF Products president; Burt Smith said, "This represents yet another success for Boeing Weapons Programs and L-3 T&RF Products. We are excited to be part of this recent accomplishment."

L-3 T&RF Products Group is made up of the following five L-3 divisions: Advanced Technology & Systems, Global Network Solutions, Southern California Microwave, Telemetry-East, and Telemetry-West.

To learn more about L-3 T&RF Products Group, please visit the company's Web site at www.L-3Com.com/telemetry.
