MC-2

The MC2-2006A* is designed as a baseline rack-ready vehicle, ready for integration of video, computer network, radio, reach-back, and/or other options. This vehicle with associated options is designed to arrive quickly and deploy rapidly.

The MC2-2006A* is based in a Chevrolet Suburban 2500 4x4 chassis and includes: Power windows and door locks; AM/FM stereo with CD; Vortec 6000 V-8 320HP Engine; heavy duty suspension package; 200-Amp alternator upgrade; auto throttle; dual battery system with boost; 2000 watts of 120-volt inverter power; 12-volt power system; shore power connection with 25-ft. shore cord; one operator station, seating for four, roof deck, a convenient cable pass-through and storage space for equipment or an optional Commander's Package.

The vehicle meets California State emissions requirements, is equipped with 10 rooftop-mounted antenna NMO bases, and contains 15 full-width and 16 half-width rack units of space for optional system equipment.

* All photos and renderings are for illustration purposes only, and may include optional equipment.
